INTERNSHIP

HP Cloud Innovations

Duration: 2 Weeks

Conducted penetration testing, SQL Injection, and information-gathering exercises to enhance system security

PROFILE

Enthusiastic front-end developer with expertise in React.js, complemented by proficiency in JavaScript, CSS frameworks (Tailwind, Bootstrap), and responsive web design. Skilled in object-oriented programming and agile methodologies, with a strong foundation in creating engaging and efficient web applications. Dedicated to continuous learning and delivering high-quality solutions.

PROJECTS

Todo List Application

Tech Stack: React.js (v18), Tailwind

- In this project, users can add tasks, mark them as complete, delete tasks, and filter their view (all, active, completed).
- Introduced a 'clear completed tasks' feature to improve user experience.
- Developed a responsive to-do list application for efficient task management, including a toggle for dark and light themes.

Space Tourism Website

Tech Stack: React.js (v18), Tailwind

- Developed a multi-page responsive website focused on space tourism.
- Features navigation, information on destinations, crew details, and technology showcases.
- Ensured a smooth user experience in accordance with the provided designs (Frontend Mentor Challenge).

Bookmark Web App

Tech Stack: HTML,CSS, Tailwind, JavaScript

- The Bookmark Landing Page is a frontend initiative that features a sleek and intuitive interface for organizing web bookmarks.
- Created as a part of a Frontend Mentor challenge, it highlights responsive design, guaranteeing an optimal viewing experience on different device screen sizes.

EDUCATION

Diploma in Computer Engineering   2020 - 2023
Al-Azhar College of Engineering and Polytechnic
CGPA: 7.93 / 10
